Company law requires the directors to prepare financial statements for each financial year. Notes to the Financial Statements

1. Accounting policies

Calico JV Limited is a limited company incorporated in England & Wales. The registered office is Centenary Court, Croft Street, Burnley, Lancashire, BB11 2ED.

Basis of accounting

The financial statements have been prepared under the historical cost convention, modified to include certain items at fair value, and in accordance with Financial Reporting Standard 102 'The Financial Reporting Standard applicable in the United Kingdom and Republic of Ireland' ("FRS 102") and with the Companies Act 2006.

This is the first year in which the financial statements have been prepared under FRS 102. However, on adoption of FRS 102 no transitional adjustments were required from prior periods.

The company meets the definition of a qualifying entity under FRS 102 and has taken advantage of the disclosure exemptions available to it in respect of presentation of a cash flow statement and financial instruments.

Going concern

The company is reliant on members' remuneration from Ring Stones Maintenance & Construction LLP ("Ring Stones"). The directors having assessed the responses of the directors of Ring Stones to their enquiries have no reason to believe that a material uncertainty exists that may cast significant doubt about the ability of Ring Stones to continue as a going concern.

On the basis of this assessment, the financial statements have been prepared on a going concern basis as the directors are of the opinion that the company will be able to continue in operational existence for the foreseeable future.

Value added tax

The Company charges value added tax (VAT) on some of its income and is able to recover part of the VAT it incurs on expenditure. The financial statements include VAT to the extent that it is suffered by the Company and not recoverable from HM Revenue and Customs. The balance of VAT payable or recoverable at the year end is included as a current liability or asset.

Taxation

The charge for taxation for the year is based on the surpluses arising on certain activities which are liable to tax. These activities are taxed within the Member financial statements according to the individual member's tax status irrespective of whether the profits are actually distributed. Therefore a tax provision on the surplus has been provided at the relevant corporation tax rate.

Business combinations

Acquisitions of subsidiaries and businesses are accounted for using the purchase method. The cost of the business combination is measured at the aggregate of the fair values (at the date of exchange) of assets given, liabilities incurred or assumed plus costs directly attributable to the business combination.

Any excess of the cost of the business combination over the acquirer's interest in the net fair value of the identifiable assets and liabilities is recognised as goodwill.

Investments

Investments are accounted for at cost less any impairment for permanent diminutions in value.

Intangible assets

Intangible assets are measured at cost less accumulated amortisation and any impairment losses.

Amortisation is calculated on a straight line basis over the useful economic life.

Investment income

Investment income represents income received from subsidiary undertakings of the company and is accounted for when received.
